Senior Product Designer specializing in complex B2B SaaS, data-heavy desktop workflows, and design systems. I build and test coded prototypes in Cursor to resolve design questions before engineering starts. Sole designer at i4cp; previously owned UX across five D-Tools Cloud modules as the platform grew from 6,500 to 18,000 active users.

Skills: Product Design · IA · Design Systems · AI Product Design · Code Prototyping · Data-Heavy UI · Accessibility · Figma · FigJam · Cursor · HTML/CSS/JS · Claude Code · AI-Assisted Development

Professional Experience

CX/UX Designer · Institute for Corporate Productivity (Remote)

February 2026 – Present

- Replaced rigid legacy Bootstrap UI patterns with standardized components and a CSS token system across 3 core platforms for 4 developers
- Shipped HTML/CSS/JS prototypes to staging through Cursor so developers could work from functioning examples, saving approximately 4 hours of engineering QA per week
- Designed the conversational AI experience for Ahri, replacing legacy search with prompt-driven access to HR research and driving a 500% adoption increase
- Established the organization's first user research practice and used findings to shape product priorities with executive stakeholders

Senior Product Designer · D-Tools, Inc. (Remote)

October 2021 – February 2026 · Promoted from Product Designer

- Owned end-to-end UX across 5 B2B Cloud modules as the platform grew from 6,500 to 18,000 active users
- Designed customizable executive dashboards and deterministic AI summaries, lifting multi-dashboard adoption to 62% and sustained weekly views by 71%
- Designed a desktop-first, real-time inventory MVP through field research and usability testing, contributing to an 8% increase in recurring revenue and 8% year-over-year adoption growth
- Grew the design system to 100+ production components with 92% adoption across engineering

Senior Design Group Critique Facilitator · DesignLab (Part-Time, Remote)

May 2021 – April 2026

- Led 400+ structured critique sessions and mentored 1,500+ designers on problem framing, UX research, and design rationale

Earlier Experience

- Product Designer · Bytemark, Inc. | Mobile transit ticketing SaaS (2021)
- UI/UX Designer & Facility Specialist · Texas Association of School Boards (2014 – 2021)

Education & Certifications

- Fullstack Developer Certification – Scrimba, 2025
- Design Systems Certification – Memorisely, 2022
- BA, Anthropology (Focus: Qualitative Research Methods) – Clarion University, 2013
